

Job offer

RNAX (www.RNAX.de) is a service company in the area of automated RNA-interference and target validation. For its research projects and customer service RNAX is looking to recruit a

Scientist/Senior Scientist

Candidates with a strong background in high-throughput RNAi applications, complex read-out systems and molecular and cellular biology are encouraged to apply. Previous experience in a biotech company is a plus.

The position is available as of March 1 / April 1, 2007. Compensation will be according to your experience. The company in spring 2007 will move to its new laboratories at the Biomedical Research Campus Berlin-Buch.

Feel free to contact us by phone for further information.

Candidates should send their application, including a recent CV and references – preferably by email – to jobs@RNAX.de.

Applications by regular mail should be sent to:

Dr. Jörg Pöttsch
RNAX GmbH
Chodowieckistr. 29
